Journal of Radioanalytical and Nuclear Chemistry, Articles, Vol. 182, No. 2 (1994) 499–502

Index to Volume 182

No. 1

S. K. Jha, I. S. Bhat (Bombay, India)
Measurement of ^{237}Np in the marine environment of coastal nuclear sites in India 5

E. Garcia Agudo, S. Gonçalves, J. T. Francisco, C. N. Shinomiya (São Paulo, Brazil)
The use of radium isotopic ratio in groundwater as a tool for pollution source identification 11

A. B. Mackenzie, R. D. Scott, P. Linsalata, N. Miekeley, H. Coutinho de Jesus (Glasgow, UK, Tuxedo, New York, USA and Rio de Janeiro, Brazil)
Interlaboratory comparison of analytical methods for the determination of natural series uranium and thorium isotopes in rock samples 21

B. M. Dantas, M. C. Lourenço, J. L. Lipsztein (Rio de Janeiro, Brazil)
Estimation of thoron incorporation by means of in-vivo measurements 35

M. C. Lourenço, B. M. Dantas, E. A. Lucena, C. A. N. Oliveira (Rio de Janeiro, Brazil)
Application of a dipping procedure to construct a ^{241}Am skull phantom 45

J. C. G. Gaburo, M. E. Wrenn, N. P. Singh, K. Crawford (São Paulo, Brazil and Salt Lake City, UT, USA)
Determination of thorium in human urine by neutron activation 53

M. S. Santos, A. M. G. F. Azeredo, D. R. Melo, L. M. Q. C. Julião (Rio de Janeiro, Brazil)
Determination of alpha-emitters in Brazilian tobacco 57

Alok Srivastava, S. J. Reddy, O. Kelber, K. Urich, H. O. Denschlag (Corvallis, Oregon, USA, Tirupati, India and Mainz, Germany)
Uptake and release kinetics of ^{134}Cs by Goldfish *(Carassius auratus)* and ^{137}Cs by Zebra Fish *(Brachydanio rerio)* in controlled aquatic environment 63

V. M. Matkar, U. Narayanan, I. S. Bhat (Bombay, India)
Distribution of Pu and Am in different parts of mango trees 71

N. Miekeley, E. A. Casartelli, R. M. Dotto (Rio de Janeiro, Brazil)
Concentration levels of rare-earth elements and thorium in plants from the Morro do Ferro environment as an indicator for the biological availability of transuranium elements 75

D. C. Lauria, I. A. Sachett, J. C. Pereira, R. Zenaro (Rio de Janeiro, Brazil)
Determination of caesium-137 soil-to-plant concentration ratios for vegetables in Goiania City, Brazil 91

D. D. Jaiswal, H. S. Dang, C. M. Sunta (Bombay, India)
Thorium in the human ribs – variation with age 97

N. Bonino, J. Diodati, M. R. Cena (Buenos Aires, Argentina)
Monitoring of urine by extraction chromatography with tri-n-octylphosphine oxide supported on a polypropylene column 103

Elsevier Sccience S. A., Lausanne
Akadémiai Kiadó, Budapest

INDEX TO VOLUME 182

J. M. Diodati, N. Bonino, M. R. Huguet (Buenos Aires, Argentina)
A routine method for the determination of plutonium in urine with a low detection limit 111

Y. Takizawa, L. Zhang, L. Zhao (Akita, Japan)
^{210}Pb and ^{210}Po in tobacco - with a special focus on estimating the doses of ^{210}Po to man 119

A. M. G. F. Azeredo, L. M. Q. C. Julião, M. S. Santos, D. R. Melo, J. L. Lipsztein (Rio de Janeiro, Brazil)
Uranium and thorium exposures associated with conventional mining 127

J. C. Hadler N., P. J. Iunes, S. R. Paulo (Campinas, Brazil)
An automated system for track measurement for the employment of CR-39 as alpha spectrometer in radon and its daughters monitoring 133

J. C. Hadler N., P. J. Iunes, A. P. Policastro, S. R. Paulo (Campinas and Cuiabá, Brazil)
Performance of the alpha-spectrometer CR-39 versus etching time and its possible application in radon/thoron discrimination 139

A. S. Paschoa (Rio de Janeiro, Brazil)
Comparison between neutron-induced and photon-induced fission for measuring actinides 149

R. Seki, T. Hatano (Ibaraki, Japan)
Isotopic ratios of $^{129}I/^{127}I$ in mammalian thyroid glands in Japan 157

J. M. Godoy, D. C. Lauria, Mª Luiza D. P. Godoy, R. P. Cunha (Rio de Janeiro, Brazil)
Development of a sequential method for the determination of ^{238}U, ^{234}U, ^{232}Th, ^{230}Th, ^{228}Th, ^{228}Ra, ^{226}Ra, and ^{210}Pb in environmental samples 165

No. 2

Qi Zhanshun, Zhang Pilu, Xie Wucheng (Beijing, P.R. China)
Improvement of the decontamination of ruthenium by hydroxylamine pretreatment 171

A. Gosman, J. Blažíček (Prague, Czech Republic)
Study of the diffusion of trace elements and radionuclides in soils 179

S. Zouad, J. Jeanjean, C. Loos-Neskovic, M. Fedoroff, Y. Piffard (Gif-sur-Yvette, Vitry-sur-Seine and Nantes, France)
Sorption of strontium and lanthanum on polyantimonic acid and two phosphatoantimonic acids 193

P. Shetty, A. A. Moosavi-Movahedi, K. Rengan (Ypsilanti, MI, USA)
Determination of trace level mercury in biological and environmental samples by neutron activation analysis 205

L. Martinot, L. Lopes, B. Andrianne, F. Gilet, F. Lebon (Liège, Belgium)
Electrochemical properties of uranium in lactones: Kinetics and electrodeposition 213

D. J. Assinder, C. D. Robinson, J. Halsall, A. Telford (Menai Bridge, Gwynedd, U.K.)
The distribution and behaviour of artificial radionuclides in sediments of the north Wales coast, U.K. 225

F. Helus, V. Uhlir, G. Wolber, H. Gasper, W. Maier-Borst (Heidelberg, Germany)
Contribution to cyclotron targetry, I. 237

M. Nekab, Ch. Heitz, G. Lagarde, A. Amokrane (Strasbourg, France)
Comparative methods for determination of rare earths in geological and mineral samples 247

A. Kraft, K.-H. Heckner (Berlin, Germany)
Neutron activation analysis of the dissolution of n-GaAs in 1M KOH 257

Y. Ronen (Beer Sheva, Israel)
Prediction of some nuclear properties of actinides 267

Chun-nan Hsu, Tien-jui Liang (Hsinchu, Taiwan, Republic of China)
Corrosion reactions of copper and Ti-Grade 2 in MCC simulated brine 281

G. L. Silver (Miamisburg, OH, USA)
Environmental plutonium: Reference states and alpha coefficients 291

M. Ebihara, S. Fukatsu, K. Hirano, H. Ozaki (Tokyo, Japan)
Neutron activation analysis of trace copper, zinc and indium in geological and meteoritic samples, using rapid chemical separations 295

S. M. Hasany, M. H. Chaudhary (Islamabad, Pakistan)
Sorption of europium on zirconium oxide from aqueous solutions 305

V. Stibilj, M. Dermelj, A. R. Byrne (Ljubljana, Slovenia)
^{81m}Se tracer for determination of the chemical yield in radiochemical neutron activation analysis of selenium 317

M. Zamin, T. Shaheen, A. Dyer (Salford, U.K.)
Use of amorphous zirconium phosphate for the treatment of radioctive waste, I. 323

M. Zamin, T. Shaheen, A. Dyer (Salford, U.K.)
Use of amorphous zirconium phosphate for the treatment of radioactive waste, II. 335

M. Zamin, T. Shaheen, A. Dyer (Salford, U.K.)
Use of amorphous zirconium phosphate for the treatment of radioactive waste, III. 345

K. Hirose, S. Takatani, M. Aoyama (Ibaraki, Hyougo and Yokosuka, Japan)
Deposition of ^{90}Sr and plutonium isotopes derived from the Chernobyl accident in Japan 349

N. D. Bryan, F. R. Livens, A. D. Horrill (Manchester and Cumbria, U.K.)
Biogeochemical behaviour of plutonium and americium and geochemical modelling of the soil solution 359

L. Oufni, S. Manar, M. A. Misdaq, A. Koutit, E. H. Chellai, M. Marzoqi (Marrakech, Morocco)
Stratigraphical study of two neighboring geological sites by using solid state nuclear track detectors 367

H. N. Erten, Z. Gokmenoglu (Ankara, Turkey)
Sorption behavior of Co^{2+}, Zn^{2+} and Ba^{2+} ions on alumina, kaolinite and magnesite 375

INDEX TO VOLUME 182

O. Kindel, F. J. Herrmann, L. Schmidt, P. Patzelt (Marburg and Eggenstein-Leopoldshafen, Germany)
Identification of iodoorganic compounds in kerosene from nuclear fuel reprocessing 385

G. M. Nair, D. R. Prabhu, G. R. Mahajan (Bombay, India)
Extraction of uranium(VI) and plutonium(IV) with dihexylbutyramide and dihexylisobutyramide from nitric acid medium 393

Ž Grahek, I. Eškinja, Š. Cerjan, K. Kvastek, S. Lulic (Zagreb, Croatia)
Separation of strontium from calcium by means of anion exchanger and alcoholic solution of nitric acid 401

M. Saleem, Riaz Qadeer, Javed Hanif, M. Afzal (Islamabad, Pakistan)
Effect of pH on the adsorption of Ce^{3+}, Sm^{3+}, Eu^{3+} and Gd^{3+} ions on activated charcoal 415

S. K. Saha, R. Guin, A. Ray (Calcutta, India)
A radiochemical method of separation of carrier-free vanadium from scandium and bulk amount of titanium 421

P. Ila, A. M. Macfarlane (Cambridge, MA and Fairfax, Virginia, USA)
Quantitative determination of In and Sn in cassiterites by instrumental neutron activation analysis 427

G. R. Relan, A. N. Dubey, A. U. Bhanu, S. Vaidyanathan (Bombay, India)
Application of second derivative spectrophotometry for the determination of uranium in yellow cake 437

F. Helus, V. Uhlir, G. Wolber, H. Gasper, W. Maier-Borst (Heidelberg, Germany)
Contribution to cyclotron targetry, II. 445

Review

T. Nishida (Fukuoka, Japan)
^{57}Fe- and ^{119}Sn-Mössbauer effect of oxide glasses 451

Bibliographic Collections

E. Bujdosó (Budapest, Hungary)
Analysis by absorption and scattering of radiation 477

E. Bujdosó (Budapest, Hungary)
Substoichiometric and isotope dilution analysis 487

E. Bujdosó (Budapest, Hungary)
Radiochemistry and radiochemical separations 489

E. Bujdosó (Budapest, Hungary)
Nuclear instrumentation and automation 497
